IT Specialist | Full-stack Software Developer| SEO Specialist| Digital Marketing Expert| Freelancer| Web Designer.
Mainz, Rhineland-Palatinate, Germany

Summary

I'm a professional with 5 years of experience in Full Stack Development, SEO, and Digital Marketing. Skilled in React, Node.js, Python, and PHP, I build scalable, user-friendly web applications. I specialize in SEO, using tools like Google Analytics and Ahrefs to boost visibility, and create impactful marketing campaigns on platforms like Google Ads and Facebook Ads. I'm driven by solving challenges and delivering measurable results.

Experience

RP Solutions GmbH

Head of Information Technology

March 2025 - Present (11 months)

Mainz, Rhineland-Palatinate, Germany

Samavira Meditation

SEO Specialist & Technical Project Manager (Freelance)

January 2023 - April 2023 (4 months)

Berlin, Germany

As an accomplished SEO Specialist at Samavira, I leveraged my extensive expertise in search engine optimization and project management to deliver exceptional digital marketing solutions. I crafted and executed tailored SEO strategies that effectively focused on keyword research, optimization, and content development, utilizing powerful tools like Google Analytics and SEMrush.

I excelled in managing multiple SEO projects simultaneously, ensuring seamless coordination among team members, and acting as the primary client contact, providing insightful updates and comprehensive performance reports. My key achievements include driving a remarkable 40% increase in organic traffic, achieving a 25% boost in search rankings following a website migration, and enhancing site performance by 30% through a meticulous SEO audit.

My skill set encompasses SEO, project management, web analytics, and front-end development, positioning me as a leader in the digital marketing landscape.

CloudMellow

Full Stack Developer & SEO Specialist (Freelance)

January 2022 - December 2022 (1 year)

Eluru, Andhra Pradesh, India

As a Full Stack Developer, SEO Specialist, and Project Manager, I deliver projects that effectively combine technical expertise with strategic marketing insights.

I design and maintain dynamic web applications that prioritize user-friendly interfaces and ensure outstanding performance, security, and scalability. My robust SEO strategies significantly enhance website visibility and drive organic traffic growth.

With strong project management skills, I lead cross-functional teams, oversee project lifecycles, and serve as the main point of contact for clients.

Key achievements include driving a 40% increase in organic traffic within six months, boosting search rankings by 25% through a major website migration, and enhancing overall site performance by 30% with an SEO audit process. By integrating my skills, I consistently deliver impactful projects that drive business growth.

Indo Euro Synchronisation

2 years

Full Stack Developer & Technical SEO Lead

January 2020 - December 2021 (2 years)

Vijayawada, Andhra Pradesh, India

As a versatile professional with expertise in full-stack development, SEO, and project management. In my role as a Full Stack Developer and SEO Specialist, I've built and maintained dynamic web applications using a variety of technologies, ensuring seamless user experiences. Simultaneously, as an SEO Specialist, I've crafted and executed strategies to boost website visibility and drive organic traffic growth, leveraging tools like Google Analytics and SEMrush. My project management experience involves leading cross-functional teams, managing project lifecycles, and ensuring the timely delivery of high-quality results. I've successfully increased organic traffic for clients

by up to 40%, managed major website migration projects, and implemented SEO audit processes resulting in significant performance improvements. My ability to integrate technical expertise with strategic marketing insights has consistently delivered successful outcomes for clients.

Full Stack Developer

January 2020 - April 2020 (4 months)

Aachen, North Rhine-Westphalia, Germany

In my role as a Full Stack Developer and SEO Intern, I've built and maintained dynamic web applications using a variety of technologies, ensuring seamless user experiences. Simultaneously, as an SEO Specialist, I've crafted and executed strategies to boost website visibility and drive organic traffic growth, leveraging tools like Google Analytics and SEMrush. My project management experience involves leading cross-functional teams, managing project lifecycles, and ensuring the timely delivery of high-quality results. I've successfully increased organic traffic for clients by up to 40%, managed major website migration projects, and implemented SEO audit processes resulting in significant performance improvements. My ability to integrate technical expertise with strategic marketing insights has consistently delivered successful outcomes for clients.

RWTH Aachen University

Student Intern

February 2020 - July 2020 (6 months)

Germany

As an Industry 4.0 Automation Intern at RWTH Aachen University, I had the privilege to immerse myself in the forefront of manufacturing innovation. Collaborating with leading experts and researchers, I delved into hands-on projects focused on automation systems, cyber-physical systems, IoT, digital twins, AI, and machine learning within the context of Industry 4.0 principles. My responsibilities included researching, developing, and implementing advanced automation solutions for real-world manufacturing processes.

Designed and prototyped automation systems using PLCs, integrating sensors and actuators to optimize production workflows.

Developed and tested control algorithms to improve efficiency and reliability in manufacturing operations.

Conducted data analysis using tools like Google Analytics, Search Console, SEMrush, and Ahrefs to monitor and enhance website performance.

Collaborated with cross-functional teams to define project scope, set objectives, and ensure timely delivery of high-quality results.

Presented findings and recommendations to stakeholders, demonstrating the impact of our solutions on client KPIs and ROI.

This internship provided me with invaluable practical experience, expanded my technical skill set, and deepened my understanding of Industry 4.0 concepts. It also reinforced my passion for driving innovation and excellence in the field of manufacturing automation.

Supraja Technologies

Ethical Hacking and cybersecurity

December 2019 - February 2020 (3 months)

Vijayawada, Andhra Pradesh, India

During my time as an Ethical Hacking Intern at Supraja Technologies, I gained valuable hands-on experience in various cybersecurity initiatives. Throughout the internship, I handled a range of cybersecurity projects, which included vulnerability assessments, penetration testing, and security audits. I effectively used project management tools like Asana and Trello to monitor progress and allocate resources.

In addition, I developed strategic cybersecurity plans that were in line with the organization's goals and performed risk assessments to pinpoint vulnerabilities. I worked closely with stakeholders to prioritize security initiatives and implemented proactive measures to reduce risks.

In terms of ethical hacking practices, I utilized techniques to identify and exploit vulnerabilities in systems, networks, and applications while adhering to ethical guidelines and legal frameworks.

I also prepared thorough reports and presentations, sharing my findings with both technical and non-technical audiences. I collaborated with team members and stakeholders to address security concerns. This internship has provided me with valuable insights into cybersecurity and has enhanced my technical skills, critical thinking ability, project management, and strategic planning in the field of cybersecurity.

Education

IU International University of Applied Sciences

Master's degree, Computer Science · (April 2022 - September 2024)

Jawaharlal Nehru Technological University Kakinada (JNTUK)
